# URGES BROWNSON

Admiral Opposed to Asking Too Much of Congress All at Once.

The naval program, which is to be esented to Congress early in the session, is being talked over considerably lately by members of the Naval Affairs Committees of the Senate and House and the naval officials. Representative Lilley of Conecticut, a member of the House committee, who recently was a member of the Congressional committee that inspected the navy yards and sta-tions on the North Atlantic coast, has been in conference on the subject with Secretary Metcalf and Admiral Brown-son, chief of the Bureau of Navigation. While some of the members have indicated a willingness to be liberal in the matter of increasing the fleet, not so with Mr. Lilley, who is opposed to the Atlantic fleet being sent to the Pacific. Mr. Lilley holds, it is understood, that if a big construction program is au-thorized the sentiment, and thorized the sentiment would be more in favor of the Atlantic fleet remaining in the Pacific. Most of the members of the committee, all of whom visited several battleships, were impressed with the work of the fleet, and all but those from the East favor the projected projected cruise.

### Plan of Administration.

It is now believed to be the plan of the Administration to get the fleet under way with a great nurrah, and enthuse everybody over the work of the navy in order that a liberal program may be carried through. The general board has recommended four battleships as large, if not larger, than the Delaware class; five scout cruisers, and a fleet of col-liers. Secretary Metcalf and Admiral Brownson both favor the program, but the question is whether it can be carried through. A division of opinion has de-veloped, it appears, as to whether it will veloped, it appears, as to whether it will be well to ask for a big program and then accept thankfully whatever is granted, or be more modest in the request and fight for it till the finish. The latter is Admiral Brownson's policy. "I don't believe in asking too much," said he. "Of course, we would be glad to have all Congress will give us but we don't always get what we want. So I think that two battleships will be sufficient to ask for this winter—two of the Deliaware type—sister ships, in fact, so as to make a complete fighting unit—a division of four big battleships."

tleships."

Admiral Brownson says that he does not favor the talked-of 25,000-ton ships, for the reason that 20,000-ton vessels like the Delaware are sufficiently large at the present time. Although the designs of the Delaware and New York were revised last winter, they have stood intact ever since, and Admiral Brownson stated that there had been no change in ideas of construction that would warrant any alterations whatever in those plans.

### Could Be Built Quickly.

"We could produce two identical ships," said he, "and all Congress has to do is to grant the authority, and we can let the contract for them in short order. There will be no delay in drawing up plans and specificationsthe old ones may be duplicated and we the old ones may be duplicated, and we could have construction work started by July 1 next, and have the new ships turned out only a year later than the Delaware and New York."

Admiral Brownson did not commit himself to to what other ships should be asked for at this session, although it is generally recognized that a fleet of colliers should be vigorously fought for.

# POTOMAC SYNOD MEETS:

In an address before the annual convention of the Potomac Synod of the Reformed Church held in Grace Church, Fifteenth and O streets northwest, totally, A. R. Bartholomew asked for subscribitions toward the proposed \$70,000 fund which is to be made as a thank offering at the celebration of the seventieth anniversary of the Board of Foreign Missions. Mr. Bartholomew is secretary of the board and told of the work being done in China and Japan.

The convention opened this morning with devotional exercises by the Rev. J. C. Leonard, of Lexington, N. C., and the early hours of the day were given over to reports and a series of short addresses.

The following officers were elected:

Trustees of Catawba College (for three years)—The Rev. J. L. Murphy, D. D., the Rev. Paul Barranger, the Rev. J. L. Murphy, D. D., the Rev. Paul Barranger, the Rev. J. A. Foll, Hon. A. A. Shiford, George McCorkie, Esq., and Earks McNairy, M. D.

Trustee (for one year)—The Rev. J. D. Andrew.

Sunday school board member (for five years)—The Rev. W. C. Schaffer for the companies of the day for a content of the proposed with the annual meeting of the lilinois Trust and Savings (for three years)—The Rev. J. L. Murphy, D. D., the Rev. Paul Barranger, the Rev. J. L. Murphy, D. D., the Rev. Paul Barranger, the Rev. J. A. Foll, Hon. A. A. Shiford, George McCorkie, Esq., and Earks McNairy, M. D.

Trustee (for one year)—The Rev. J. D. Andrew.

Sunday school board member (for five years)—The Rev. W. C. Schaffer for the companies of the day were certainly will kin December is."

## ELECTION CHANGE PLANNED BY BOARD OF TRADE

(Continued from First Page.)

John Joy Edson, Abram P. Farden, Archibald Greenlees, George H. Harries, James B. Lambe. Crosby S. Noyes, Ellis Spear, and W. P. Van Wickle.

At the recent meeting of the board of directors there was some discussion as to whether or not the amendment was retroactive, and could be interpreted to apply to those directors who were elected prior to the incorporation of the two-year limit in the by-laws. One director, it is known, arose during the discussion and announced that, whatever the interpretation of it might be, he saw the sense of it was that it should not scand for his re-election as a director.

If, as is freely claimed today, a ma-

or.

If, as is freely claimed today, a majority of the Board of Trade is in favor of the repeal of the two-term clause, there will be little difficulty, it is thought, in securing a vote that the amendment is not retroactive, and does not therefore apply to the men whose terms expire next month.

## Important Announcement

The Sunday Times will begin tomorrow the publication of a series of special articles on the Japanese-American situation by Capt. Richmond Pearson Hobson, member of Congress, and one of the best informed men on 488 MAIN AVENUES. W. PHONE M. 2025 oct-tf naval affairs in the whole world. These articles, eight in number, will treat of

what America has to fear from Japan, WHAT JAPAN'3 SECRET PLANS ARE, and what the Oriental nation is doing in preparation for a gigantic struggle with America, a struggle which, if consummated, WILL ENTAIL THE LOSS OF THOUSANDS OF LIVES AND THE SACRIFICE OF PROPERTY WORTH BILLIONS OF DOLLARS.

Captain Hobson will lay before the reader in luminous style the dreams Japan cherishes of conquests to come. He will explain how the Oriental, just out of medievalism, thirsts for glory at any cost, and lays the flattering unction to his soul that he can bring proud America to sue for terms.

The writer will explain how Japan could gather in the Philippine possession as the fruit 1 at \$9.99 equal any \$15 picker plucks a ripe apple from the bough. He will give, in logical and convincing sequence, his reasons for his conviction that Japan can capture and hold for years the Pacific slope. He will picture the crests of the Rockies crowned by the hostile guns of a nation drunk with power and wild with the lust of conquest. He will tell, word for word, the boasts of the Japanese today that they can wring from unwilling American treasuries huge indemnities and ransoms. He will show, with startling vividness, that Japan, the "little nation," is planning to strike at the United States a terrific blow.

These articles will touch on every phase of the situation, the feverish activity in the Japanese ship yards, the army of spy inspectors maintained here by Japan, the fact that Japan's diplomats expect war with the United States, and the further fact that the American people, lulled to rest by consciousness of power, are asleep on a volcano, the volcano of Oriental hostility that may at any moment strike this country a blow so fierce that years will be required to recover from its effects.

E
